BOOTH # 522

Why Visit Booth 522

If multi-carrier complexity, DIM weight fees, and rebate tracking are draining your time and margin, Reveel can help. Our PSM 2.0 platform turns parcel chaos into clarity, with real-time analytics, prescriptive insights, and automation that drives results. Visit Booth 522 for a live demo and get your full copy of the 2025 Parcel Shipping Intelligence Report. We'll show you how to simplify audits, optimize contracts, and prepare for the 2026 GRI — all without switching carriers. Reveel's tech solves what others can't. **https://reveelgroup.com | info@reveelgroup.com | 877.842.9443**

BOOTH # 122

Visit S&H Systems at PARCEL FORUM – Booth #122

Looking to improve throughput, accuracy, and efficiency in your parcel operations? Visit S&H Systems at Booth #122 to explore tailored automation solutions, including high-speed sortation, conveyors, robotics, and controls. With deep operational insight and a proven track record across distribution, parcel, and logistics environments, we design and integrate systems that solve real-world challenges — whether in brownfield retrofits or greenfield builds. Backed by a people-first culture and strong engineering support, S&H is a strategic partner committed to reliable execution and long-term success. **https://shsystems.com**

BOOTH # 343

Sendflex is a next-generation parcel TMS built for today's shippers facing parcel market complexity, volatility, and margin erosion. Shippers can configure cost-effective packing, routing, and shipping rules in minutes — instead of weeks of costly programming. Let us show you how our in-platform decision intelligence engine processes an unprecedented 3 million rates, ETDs, and business rules per second. That means instant and more accurate rating directly in shopping carts — no more relying on slow carrier APIs. It enables upstream order optimization and dynamic "what-if" cost simulations to enable more cost-effective planning. And mush smarter multi-carrier label printing at shipping stations. **Sendflex.com**

BOOTH # 239

Out with the old, in with the new. Visit Sifted in booth #239 at PARCEL Forum and see how shippers are moving beyond outdated logistics solutions. With 20 years of industry leadership, Sifted provides modern technology to keep parcel operations optimized and running smoothly. Our latest platform, SiftedAI, uses artificial intelligence to monitor shipping spend and performance, recommending personalized opportunities for improvement. Unlike traditional consulting models, it continuously scans for anomalies and alerts shippers when action is needed, transforming logistics from an administrative burden into a competitive advantage. Let go of the old way. Discover what's next in smarter shipping. **sifted.com | info@sifted.com**

BOOTH # 528

Want to pinpoint what's eroding your margins at the SKU level? Visit us at Booth 528 to see how AI-powered insights and expert analysis turn complex parcel data into clear actions — through audit, contract optimization, and intelligent business analytics. Plus, don't miss our panel on September 9 at 10:00 AM CT: Unlocking Next-Level SKU Profitability: Leveraging AI, Machine Learning, and Data-Driven Strategies. Learn how to uncover hidden costs, maximize predictive analytics, and optimize your parcel ecosystem. Prefer something more casual? Join us during Exhibit Hall Hours for our Transportation Insight Craft Beer Tasting Event. Let's transform your parcel strategy together! **www.transportationinsight.com | mrktevents@t-insight.com**

BOOTH # 413
