ENGINEERING
innovation

Engineering Innovation, Inc. is dedicated to providing cutting edge solutions that offer maximum postage savings, excellent service and support, and the best of class technology and engineering to our customers.

EII combines more than 30 years of mailroom experience with over 20 years of postal automation design experience to develop solutions that work for mailers of all volume sizes and mail classes. EII's systems combine the best data capture with the finest parcel transport (including polybags) in the industry. Our software, as reported by current users, "is second to none!"

EII's parcel solutions include the revolutionary **EZ-WorkDesk** and **EZ-Parcels** systems which rapidly process parcels for induction and routing. EZ-WorkDesk provides quick parcel induction capabilities with the lowest initial investment. The **EZ-WorkDesk** integrates data conversion tools to capture information from multiple platforms and warehouse management system environments to generate shipping labels on demand. Our latest is the **EZ-Parcels Modular Parcel Solution (MPS)** that provides custom-off-the-shelf options to perfectly fit your needs. The EZ-Parcels MPS can feature barcode and OCR reading, weighing, dimensioning, RFID, label application, and comes in a variety of speed ranges to meet the end users' needs and budget. This solution can be customized to fit the needs of each company due to the modular design. EZ-Parcels MPS is ideal for Outbound Processing, Data Capture, Parcel Induct, and Logistics companies.

In line with EII's commitment to provide the mailing industry with cost effective solutions for maximizing postage savings, these systems open up new savings/revenue opportunities for fulfillment, consolidators, returns package processing, mailers, and shippers. All equipment includes options for Wide Area Barcode Reader, UMove Move Update processes, processing International Mail, and Inbound Mail. We compliment these great products by providing hardware and software service after the sale designed to ensure our customer's success.

This fall, EII will be celebrating its 10th anniversary of providing innovative and cost effective automated parcel solutions. EII has grown from a start-up of three guys in 2006 to a diverse and skilled team of more than 60 employees in 2016, and we look forward to many years of continued growth as we keep pace with the dynamic letter and parcel industry.
