

# Smarten your supply chain.

**PARCEL**

**KEWILL**<sup>®</sup>  
Keeping Your Supply Chain in Motion

## About Us

A worldwide leader in logistics software, Kewill empowers organizations to efficiently MOVE goods and information across the global supply chain.

Kewill delivers quantifiable value to our customers by forging long-term partnerships that enable them to minimize risk, grow their business and respond to changing market dynamics. The Kewill MOVE<sup>®</sup> platform helps companies collaborate, reduce costs, manage volatility and automate processes across the entire supply chain – from transportation and warehousing to compliance and visibility.

Kewill, a Francisco Partners portfolio company, supports supply chain execution activities for more than 7,500 companies in over 100 countries.

## Our Solutions

### Transportation Management

*Boost the Speed, Accuracy and Transparency of Your Global Transportation*

### Customs Management
