You Have to Know Where to Look for Shipping Savings

There is gold in your shipping organization and Neopost USA can help you mine it. You may have a good strategy to control your shipping costs. However, there is more value on the table that you may have overlooked. The ever-escalating, but controllable, cost of shipping is an obvious and often overlooked cost-saving opportunity. Neopost USA has shipping solutions to fit every type of environment—whether it is a warehouse environment, a centralized mailroom, or desktop shipping users around the world.

We have the Solutions to Your Shipping Problems. Neopost USA can help you implement a few, easy-to-adopt functions into your operation that will control your shipping spend:

- ▶ Utilize multiple carriers and services—find the mix of carriers and services that fit your needs best.
- ▶ Develop an inbound shipping plan for packages to be tracked.
- ▶ Develop easy-to-follow but disciplined business rules for shipping—get more control over who has the privilege to ship.
- ▶ Increase the visibility and control of shippers within your organization with easy to use tools and email notifications.

Introducing Neopost USA's shipping strategy into your organization could result in potential savings of 15 to 30 percent. Implementing an enterprise-wide shipping application brings an intrinsic set of control, compliance, cost-management and accounting benefits. That's in addition to the smart choices you can make with carrier rate and service comparisons and the control you can have when monitoring misuse or unauthorized shipping activities.

The Peace of Mind You Deserve. Neopost USA, a leader in multi-carrier shipping software, has the solutions you can use right away to reverse costly shipping practices and realize the financial benefits of a controlled process.

The gold is there. You just have to know where to look.
