SSI
Software Solutions
Unlimited, Inc.

Among freight audit and payment companies, SSI is unique. We listen. We innovate. **We help SMALL PARCEL SHIPPERS** implement solutions that reduce transportation costs. Trust is established through transparency. We encourage shippers to consider the following:

Do you know if CARRIERS ARE PAID? Is it timely payment? Do you have visibility to carrier funding?

At SSI, our number one goal is your trust. Our tools allow shippers to independently verify carrier payment. Our solution helps you know exactly when, where and how much was paid. We guarantee we'll be the most transparent partner you've ever had. To learn more watch our video at: <http://ssui.com/freight-payment>

Are custom freight contracts audited accurately? Do you employ an AUDIT POLICY for each carrier?

We understand that no single-contract is the same. We develop unique pre-audit policies and rules for each client to ensure contract accuracy. Not only do we check for duplicate bills, rate errors, billing discrepancies, and, of course, service failures, but we work with our clients to review the addendums, small-print references, and custom services negotiated with the carrier. The result is a more comprehensive audit and greater savings. For more information about our custom freight bill audits, watch our video at: <http://ssui.com/freight-bill-auditing>

How good are your parcel shipping reports? Can you dig deep into data? Can you SHIP SMARTER?

SSI will help your shipping department reduce costs and ship smarter by providing tools that are far beyond the typical offering. Our business intelligence reports deliver graphs and charts that help illustrate carrier activity month-to-month, quarter-to-quarter, and year-to-year. We help you uncover and pinpoint shipments and carriers that adversely affect cost. Our freight benchmarking dashboards illustrate high-level trends and allow analysts to drill deep into shipping metrics. Check out our business intelligence and freight benchmarking video at: <http://ssui.com/business-intelligence>

SSI freight payment and audit services are different by design. Check out our website today to **WATCH our VIDEOS** and **DOWNLOAD our FREE WHITE PAPERS** to learn more.
