## The Leader in USPS Shipping Technology and Automation

As a strategic partner of the United States Postal Service since 1999, Stamps.com has been providing award-winning shipping and postal technology for some of the world's largest companies. With over 500,000 customers and over 100 patents, Stamps.com has become the world leader in online postage technology and automation. Our shipping integrations with Amazon.com, eBay, Yahoo! and Paypal have also established Stamps.com as a driving force in global e-commerce shipping. Whether it's our powerful stand-alone batch shipping software (with direct database integration) or our complete Web Services API, Stamps.com has solutions in place to increase the effectiveness and efficiency of your shipping and fulfillment process.

### Seamlessly integrate low-cost USPS shipping into your existing operations

With Stamps.com, you can easily integrate USPS shipping services into your existing warehouse workflow. Wherever, whenever, however you need USPS services, Stamps.com delivers. Integrated directly into your e-commerce platform? Sure. Warehouse, transportation or ERP management systems? No problem. API? Easy. Stamps.com gives you the power to completely customize the shipping process to meet the needs of your business. Best of all, we make the USPS as easy to use as any private carrier. We even have USPS postage invoicing options.

### Automation makes USPS shipping easier

From importing and managing orders to selecting the best shipping methods, Stamps.com can help your warehouse practically run itself... faster, smarter and more efficiently.

- Selects best rates based on custom shipping rules and customer preferences
- Links multiple workstations and warehouses for better control and visibility
- Auto-generates USPS-compliant labels and documents (Domestic and International)
- Improves shipping operational efficiencies and transportation costs
- Automates post-back from export files/ODBC
- Improves delivery accuracy with automated address cleansing

### Unmatched Speed and Proven Reliability

You don't have time to sit and wait for orders to be processed and shipped. Not a worry with Stamps.com. With lightning-fast batch shipping and API, Stamps.com can process thousands of orders in minutes. Of course, speed means nothing without reliability. Our 99.9% uptime leads the industry. It's no wonder Amazon.com, USPS.com and Intuit count on us for their shipping technology... along with over 500,000 other Stamps.com customers that process over 3,000,000 shipments daily.
