

Established in 1997 and re-launched in 2004, England Logistics has seen significant growth from a group of eight individuals to a team that is set to surpass four hundred employees this year.

England Logistics goes to great lengths to ensure that top tier talent is recruited in every level of England Logistics so its employees and agents can offer full logistics services handling everything from parcel to supply chain management.

The freight agent program at England Logistics is a successful team of professionals who deliver reliable, cost-efficient, door-to-door transportation coverage across the country and around the world. It is our vision that England Logistics invests in each agent's development so his or her experience as an England Logistics' freight agent is fulfilling and enjoyable.
