BÖWE SYSTEC is one of the world's leading suppliers of smart automation solutions. For over 70 years our products have streamlined and optimized work and production flows across a wide range of very diverse industries. Our innovative, custom-designed technologies give our customers the competitive edge in their markets. Every day our 1,000 plus employees around the world demonstrate their commitment, their know-how and their determination to ensure our customers succeed. High-tech products to be proud of – made in Augsburg.

BÖWE SYSTEC's OptiSorter is a highly versatile packet and parcel sorter that also has the flexibility to process brochures, catalogues and poly bags. The OptiSorter can incorporate inline features including: BCR and OCR reading, weighing, volumizing and labeling to increase operational capacity and improve operational efficiencies.

The OptiSorter sorting system is an integrated solution consisting of push tray sorter technology complemented by the BÖWE Sort software solution. Key features of the OptiSorter are the system's versatility and ability to process all package formats up to 70 lbs. including parcels, packets and Flats.

- ▶ OptiSorter is available in a wide range of configurations including carousel, vertical, horizontal, dog leg or multilevel
- ▶ OptiSorter can process up to 18,000 trays per hour with noise levels less than <70db
- ▶ OptiSorter's Push tray technology guarantees a smooth handling of the items into single or double chutes, roll containers, cartons, boxes or totes
- ▶ OptiSorter's low energy consumption, simple operation and easy maintenance make this the perfect packet and parcel solution
- ▶ BÖWE Sort OCR offers industry-leading reading technology which incorporates omnidirectional OCR and barcode reading capabilities
