More than an Integrator

DMW&H's Post and Parcel division provides solutions specific to the industry.

With more than a half-century of experience, DMW&H has refined a unique approach to automated solutions. We design, integrate, install, and support complex material handling programs that deliver complete, collaborative automation solutions to meet or exceed your fulfillment and distribution needs. DMW&H's history of providing innovative solutions to the post and parcel industry is at the heart of this division.

Our talented team of consultants, engineers, controls and software experts, installers, and project managers will work with you from conception through final commissioning. They'll design and deliver a material handling solution that will transcend your strategic, operational, and financial goals.

DMW&H understands cutoff times, throughput, processing time, increasing mix of bags and carton, and customer needs. We understand your needs for a robust material handling system and will design, manage, implement, and support your facility and make sure you have limited downtime due to your material handling equipment.

DMW&H Analysis & Design Services

- ▶ Facility Layout and Material Handling Design
- ▶ Operations Improvement
- ▶ Supply Chain Strategy and Modeling
- ▶ Distribution Information Systems Planning

DMW&H Connects You With Software & Integration

- ▶ Shiraz Warehouse Control System – easily integrates with sortation management and manifesting systems, enterprise resource planning (ERP) systems, and warehouse management systems (WMS). It directs operations to ship and manifest, pack, label, manage labor and tasks, sort packages, pick orders, and handle returns.
- ▶ WHizard – The Monitoring and Tracking System: provides a comprehensive, powerful solution for you to monitor and control your complex material handling systems in real time.

Implementation & Support

- ▶ Experienced installation teams
- ▶ Dedicated, professional project managers to remain on track and on budget
- ▶ Post-sales support including parts, maintenance services, and 24/7 tech support hotline staffed by experienced engineers and material handling experts.
