#### Other Changes

##### Dimensional Weight (effective January 3, 2011)

FedEx may assess transportation charges based on dimensional weight, which is a volumetric standard. Dimensional weight is calculated by multiplying the length by width by height of each package in inches and dividing the total by a specific factor. FedEx will change the factor from 194 to 166 for FedEx Express shipments within the U.S. and between the U.S. and Puerto Rico, and from 166 to 139 for U.S. export and U.S. import-rated shipments. FedEx will change the factor from 194 to 166 for FedEx Ground packages that are 3 cubic feet (5,184 cubic inches) or larger for shipments within the U.S., and from 166 to 139 for FedEx International Ground shipments to Canada.

##### Residential Delivery Charge

FedEx will implement a Residential Delivery Charge of \$2.75 per shipment for FedEx Express package services and \$110 per shipment for FedEx Express Freight services for shipments from the U.S. to Canada delivered to a home or private residence, including locations where a business is operated from a home. U.S. import-rated package and freight shipments from all origins to the U.S. will also be subject to these charges.

##### Additional Handling Surcharge

FedEx may apply an Additional Handling Surcharge of \$8 per package to FedEx First Overnight shipments, and \$8 per shipment to FedEx Express U.S. export package services, for any package that: 1) measures greater than 60 inches in length; 2) measures greater than 30 inches in length along its second-longest side; 3) has an actual weight of greater than 70 lbs.; or 4) does not meet other packaging guidelines. For details go to [fedex.com/us/rates-surcharges](http://fedex.com/us/rates-surcharges).

An Additional Handling Surcharge of \$100 per piece, skid or pallet will apply to FedEx Express Freight U.S. services or \$100 per shipment for FedEx Express Freight U.S. export services for shipments that measure greater than 70 inches in length.
